## SFPD Pedicab Operator Test

### Overview

Don't fret. The test is simple. In fact, no rider in recent history has failed. Absorb the key information below. Know your basic cyclist hand signals, and bring with you your common sense. Good luck.

### Key information

Pedicabs operators...

- can stop in white and yellow zones.
- cannot stop in red, bus, or taxi zones.
- cannot ride in diamond lanes or on sidewalks.
- should not go faster than being able to stop within the distance of the front light.
- should maintain a distance of one car length for every 10mph
- should have unobstructed views (200 ft) before executing a U-turn.
- should allow operators on their right the right of way.
- must keep their pedicab operator's license on them at all times.
- must have their company's insurance information filed with SFPD at all times
